Beyond Senses

An interactive one-hour wellness journey

01	02	03	04	05
TASTE	SMELL	TOUCH	SIGHT	HEARING

In one hour, Beyond Senses turns the five senses into a memorable guest experience: five seafood tastings, five fragrances, five textures, a soft light show and a gentle rainstorm of sound, all leading to one simple question that opens curiosity about awareness itself. It is non-religious, accessible to all ages and cultures, and designed for small groups of up to 12, using your own space and amenities. The result: a distinctive wellness offering that stands apart from yoga and spa, and that guests remember and recommend.

Finding 4 participants every two days is realistic when offered as an in-house wellness / entertainment activity for couples, families and weddings. (Weddings: minimum 2 guests; otherwise 4 pax minimum per event.)

The Five Senses Journey

Guests move through carefully prepared sensory activities. The journey begins with tasting (≈15 min), followed by the other senses, a moment of discovery, a short facilitated presentation, quiet observation, and an optional Q&A.

THE QUESTION ON STAGE

"During these 25 sensory experiences, everything you experienced was temporary and different... But there was one experience that... Can you find it?"

No answer is given immediately — the question opens genuine curiosity and bridges into awareness.
